

SimaPro 7.3.3 software update instructions

Introduction

This document describes how to update your current SimaPro 7 to version 7.3.3. You will find detailed instructions below. Please read these carefully. Should you still have questions, please contact your local SimaPro partner (www.pre-sustainability.com/partners) or the PRé helpdesk via support@pre-sustainability.com or by phone +31 33 4504010.

To update to SimaPro 7.3.3 from SimaPro 5 or 6, use the full SimaPro 7.3.2 installation, which is available on www.pre-sustainability.com/install.

Summary of the update procedure

The update procedure can be summarized as follows:

1. Update of the SimaPro 7 software:
Update your SimaPro 7 Single User and Multi-User client software to SimaPro 7.3.3.
2. Update of the libraries in the SimaPro database:
Update your data libraries by importing the update database, which you can download from: www.pre-sustainability.com/versioncheck. This procedure is described in a separate database update document.

Update of the SimaPro 7 software

The update to SimaPro 7.3.3 replaces your current SimaPro software.

Multi-User versions

We recommend that multi-user updates are done by your network administrator.

- The SimaPro Multi-User clients have to be updated.
- If you use SimaPro database server 7.2 or later, the database server program does not need to be updated.

Procedure for Single User and Multi-User client

1. Close SimaPro
2. After downloading the "SimaPro 7.3.3 installer" (SetupSimaPro733.exe) from www.pre-sustainability.com/versioncheck/, run the program and then follow the instructions in the setup wizard.
3. After installing the update, you can start SimaPro 7.3.3. On opening your database, a small adaptation is made in the technical database format. Your SimaPro database cannot be opened with SimaPro 7.2.2 or older versions anymore.
4. Proceed with the database update. This procedure is described in separate database update instructions (PDF, download from www.pre-sustainability.com/versioncheck/)
